**Fee for the external reviewer at a licentiate degree seminar****Background**

When the general regulations for third cycle education were revised (LS 2012/718), a requirement was introduced for an external reviewer at the final seminar for a licentiate degree. As the external reviewer at the public defence of a doctoral thesis is remunerated, it is reasonable that the external reviewer for a licentiate thesis should also receive a fee for the assignment.

**Decision**

The dean has decided that the external reviewer at a licentiate degree seminar is to receive a fee of SEK 3500 for a completed assignment. The fee only applies for external reviewers who are not employed at Lund University.

This decision was made by the dean after a presentation by Tobias Nilsson and a consultation with the faculty's research programmes board and presiding committee.

This decision replaces the previous decision P 2014/1628, which hereby ceases to apply.
